Hitler's new conscription scheme.

Paris, Aug. 27.

The struggle for the possession of Irun and San Sebastian was resumed to-day and resulted in another insurgent check.

Following a heavy barrage by both sides, the insurgents attempted to storm the Government lines, but their attacks broke down and they were early compelled to abandon the direct assault along the road to Irun and attempted a flanking movement on the slopes of Mount Turiarte. This also ended in failure.

Following the arrival of reinforcements from Burgos, the rebels appear to have made some progress, but they have not succeeded in turning the strong Government positions.

This afternoon the fire slackened on both sides, for the combatants seemed to have tacitly agreed to have a siesta while the front line troops were relieved.

BRITAIN TO PLAY PART

London, Aug. 27. The internal politics of Spain concern the people of Spain, but the mass execution of war prisoners and the barbarous reprisals engendered thereby are

matters to which the civilised

states cannot remain indifferent.

This point was stressed in a communication from the Foreign Office to the British Ambassador, Sir Henry Chilton, who is at present in Hendaye, on the Franco-Spanish border close to the scene of fighting around Irun and San Sebastian.

The communication cordially welcomes the projected scheme of cooperation in approaching the leaders of both sides to urge an end of brutality, and emphasises the urgent desire of the British Government to play a full part in an organised international effort which, it is hoped, will have favourable results,-Router.

The Anglo-Egyptian Treaty terminates the military occupation of Egypt and establishes an Anglo-Egyptian alliance which will continue for twenty years, after which it will be subject to revision by agreement at the request of either party.

Negotiations for revision may be begun after a decade if both parties with it. Any revision must provide for a continuation of the alliance in accordance with the principles contained in the present treaty, namely, that neither party may adopt an attitude or conclude a treaty inconsistent with the alliance, and the Governments will consult each other with a view to a peaceful settlement of any dispute with a third -party, threatening to rupture relations.---

In the event of either party being engaged in war, the other will come to its assistance, as an ally, subject to its obligations under the Covenant of the League of Nations or the Pact of Paris.

In the event of war being imminent, or a menuce of war, or international emergency apprehended, Egypt, will accord all facilities to the United Kingdom, including the use of Egyptian ports and nero-dromes, means of communication and all necessary administrative and legislative measures, including the establishment of martial law, and the means of transport of troops.

DEFENCE OF SUEZ

With a view to ensuring the defence of the Sucz Canal, the United Kingdom is authorised to maintain Canal Zone force not exceding 10,000 men and an Air Force unit not exceeding 400 pilots, until the two parties agree that the Egyptian army is capable of ensuring the proper and entire security of navigation in the canal. But these numbers of troops may, be increased in the event of ar international emergency.

At the conclusion of the period of the treaty, the question of the canability of the Egyptian army, if the contracting parties do not agree, will be submitted to the League Council or some other competent body approved by both parties.

The Egyptian Government will

bulld, Canal Zone barracks for British troops and will also construct roads from the Canal Zone to Alexandria and Cairo and will improve the rallways in the Canal Zone. On the completion of this work the British forces will be withdrawn from the Canal Zone, but the forces will remain at Alexandria for a period not exceeding eight years, which time is considered necessary for the final completion of barracks in the Canul Zone, improvement of roads to Cairo from Suez, Cairo to Alexandria, and Alexandria to Mersanatruh, and the improvement of rallways between Ismallia, Alexandria and Mersamatruh.

THE NINEPOWER TREATY Yosemite, Aug. 27.

The Japanese delegates, during round-table discussions in connection with the conference of the Institute of Pacific Relations, rejected a suggestion to submit the Ninc-Power Treaty to the Hague Court for interpretation.

They declared that no nation would accept the verdict of any tribunal on a matter of life and death. Insisting on a special conference for revision of the Nine-Power Treaty, the Japanese declared that suppression of foreign postal systems was the only clause of the Treaty so far fulfilled.

The Japanese also insisted that the clause requiring a decrease in Chinese armies had not been fulfilled, neither had the clause relative to the gradual abolition of foreign concessions in

The delegates believed that all these and other questions arising from Russia's advent to Pacific power were not existing when the treaties were negotiated; and this necessitated a new conference for lengthy study of each question involved.-United

Summer Outfits That Cost You Almost Nothing

HIS isn't the time of year when we want to be bothered with a lot of elaborate sewing. On the other hand, it's the time when we seem to need most clothes, what with summer sports, week-end jaunts, full-blown holidays, to say nothing of hum-drum affairs like business and home-running.

So during this month I am choosing patterns that are specially simple to make.

For instance, you can make in a single evening any of the hats pictured here to-day. And it's smart to have a hat of the same material as your dress or

They are all cut from Butterick Pattern 6901, obtainable at any store. If you order your pattern to-day and get your material to-morrow you can make it Sunday evening and wear it on Monday,

The pattern includes pieces for two quite different style hats, and each of these styles may be worn in three different variety for your one pattern.

Ventilation

Crown

IMRST of all let's consallor type shown in the first drawing. It's got one of those smart new crowns that let your hair show through. The very thing for a hot summer day. Yet the crown is so arrang-

ed that your hair will keep tidy even while pleasant little breezes are keeping your head cool.

The upturned brim, too is windresisting. Althouh it's wide and elegant, it won't flap irritatingly up and down when you're walking against the wind.

"When you've cut out the pattern start by making the crown. This con- . sists of two pieces of material, each shaped slightly so that they are wider at the ends than in the middle (slightly wasp-waisted, in fact). Work two rows of stitching at the sides of each piece.

Then lay the two pieces together in the form of a cross. Tack the corners of the cross together-and there you

have your hat crown, with four air-holes down the sides. Now leave the crown for a few minutes while you see to the brim. This is cut in one sweeping curve from two thicknesses of material. Line both the upper and lower pieces with book muslin, stitch the side seam of each so that the two circles are complete and then stitch both

circles together to form a nice firm brim. Work double rows of machine stitching at regular intervals; add a ribbon band to the inside edge of the brim, then on to this band stitch the crown. Slip another short piece of doubled fabric through the opening in the crown and tie it firmly in a rabbit's ear knot right at the top. Add a narrow band of stitched fabric round the crown and the hat is ready to wear.

Contrast and Colour

VOU could make it in linen with a contrasting effect—say a navy I grown and white brim to wear with a short white linen cont and navy dress and navy and white shoes. Or it would look very gay at the seaside made of one of those jolly

novelty cotton inbries printed with little green and red ships or comic This same hat could be made of taffeta silk, all in one colour without the top knot and with the brim turned down save at one side, where it

THE appointment of a Director-General of Munitions and a supplementary estimate of £850,000 for the production of 15,000,000 "perfect" gas-masks for the public are the latest moves in the British Government's defence campaign.

For a year experts have been designing a gas-mask which can be produced by mass production methods at a cost of about 2s. each. The designs have now been approved.

The mask, it is said, will resist the strongest concentration of gas for 15 minutes and normal gas conditions for four to five hours. It is to be manufactured in all sizes—for babies, schoolchildren and adults.

Arguments advanced by Mr. P. B. Morle on behalf of Mr. B:— That a husband's plea for "discretion" was not a clear confession of misconduct.

There was nothing in the husband's prayer to the court to show that he was confessing misconduct.

Mr. Justice Langton, giving his decision, said the test was whether the allegation against the husband could stand without the support it received from the original petition. Fleet, to the post of Director-General If the petition were discontinued, the wife's allegation would fall to the

50 British Babies "Exported" a Year

CTRONG action is likely to be taken officially before the end of the year to put an end to a long-established "traffic" in British babies for adoption in Holland.

For some months, in a general inquiry into child adoption in this country, the Home Office has been paying particular attention to the question of the adoption of English babies by foreign fosterparents.

NETHERLANDS LAW

In the Netherlands there is a law against child adoption. As a result; it was stated at a meeting in London of the National Council for the Unmarried Mother and Her Child, hundreds of couples have come to England in search of babies.

the Unmarried Mother in the Netherlands, said that much concern was felt for British babies so "exported," 90 per cent. of whom were the children of unmarried mothers.

There was no control over babics adopted by parents in the Nether-lands, for they retained their British nationality until the age of 21.

About 300 children were said to have been received by foster-parents in Holland already.

GOOD HOMES

Further inquiries reveal that the exportation of British bables to the Netherlands has been much more extensive.: 🕾

Among the views expressed were: The Mission of Hope, Incorporated, South Park-hill, Croydon,-Over a period of 20 years we have found homes in Holland for an avorage of 50 British habies a year, and there has rarely been cause for complaint. But we have now decided
to stop such adoptions, because the

BIG POOL BANNED

AT LUXURIOUS HOME OF MILLIONAIRESS

Honolulu, Aug. 27. The Harbour Board has refused permission to Mrs. Doris Cromwell (formerly Miss Doris Duke, the American heiress) to build a private swimming pool at the \$500,000 house which she is now erecting at Knalawai Beach.

"The using of great wealth for private ends is contrary to the pub-lic good," states the Harbour Board. Another reason for the refusal is that the pool would prevent public access to part of the beach between Diamond Head, and Koko Head.— United Press.

CORONATION FLAGS MAKERS OVERWHELMED WITH ORDERS

London, Aug. 27. Flag manufacturers have itee: overwhelmed with orders in connection with the Coronation next

It is understood that the man'tfacturers are complaining of the lack of skill in the operatives making the tlags, in which the cutting and joining require highly skilled labour.

The need on one firm of manufacturers, who is 74 years old, statedthat he had been making flags for two coronations and three Empire celebrations, but the orders for King Edward's Coronation, at present received, exceeded orders for any former occasion.—Renter's Bulletin.

COVERAGE: For many years the "South China Morning Post" has been regarded as the leading newspaper in Hongkong and South China. It has by far the largest circulation, penetrating to the Outports and inland centres. "The Hongkong Telegraph" enjoys a similar pre-eminence as the leading afternoon newspaper.

IN THE HOME: The newspaper that produces profitable results to the advertiser is the newspaper that is read and re-read by the family. The S. C. M. Post reaches most families with morning. Similarly, "The Hongkong Telegraph" is the afternoon favourite with the majority.

LOCAL PRESTIGE: The judgment of "the man on the spot" in respect to media selection is. based on sound knowledge and can be followed with confidence. Year in and year out leading local firms expend the greater part of their allocations in the "South China Morning Post" and "The Hongkong Telegraph."

It will thus be seen that the banishment laws, as at present operated, failof their purpose, added to which is all the trouble and expense of arrest and imprisonment and the consequent congestion of already overcrowded gaols. It would be illuminating in this connection to know how much costs the Colony annually in the prison maintenance of returned banishees. The sum must b very considerable, and it money largely wasted, since experience has shown that the fear of imprisonment does not deter these people from returning. The Government viewpoint that the law against disobedience of deportation orders must be enforced, cannot be disputed. But there is obvious need that that law, or the manner of its such on arrest for another

SAM CUNARD STARTED SOMETHING

Roderick Morison

VINETY-SIX years ago this summer Sam Cunard sent à steam packet paddling into the Atlantic Ocean at a furious eight knots-to win a new and noble Blue Riband for Britain.

What a Blue Riband it was that he nailed to his Britannia's mast-And how the world gasped!

America in 14 days! But Sam Cunard could not span the century, nor dream of the titanic struggle that would develop between five great nations for the supremncy of the Western Ocean.

A MERICA led from 1851 to 1856, A and then the paddle-and-sail Persia, with an average of close on 14-knots, won back for Britain a record that was to stand for more than

The Persia, by the way, in addition to one cannon, carried one cow to provide the more delicate passengers with milk.

Germany thrust through in 1803 with an average of 22 1/2 knots by the Kaiser Wilhelm der Grosse, which shortened the westbound passage time to five days and a few hours. There followed a nine-year lulluntil the Mauretania came, in 1907. to beat five days and to beat the best German average by a third of a knot.

Before I wirelessed to London the news of that fastest Cherbourg-New York passage, I asked Captain Rosiron for a message. Without a word he took a piece of paper from me and drew out his fountain pen. "Mauretania Resurgat," he wrote firmly. ("May Maureiania rise again.") Five years passed. The Mauretonia again lay at her New York

PLANS are nearing completion for the construction of the biggest residential block ever mooted for this Colony.

One of three schemes is shortly to be developed in an area that covers almost one block in the heart of Kowloon. The scheme likely to be adopted calls for the erection of a 15-storey building, containing a total of seventy sump-

tuous flats of three, four and five rooms. This building will exceed in size the Peninsula Hotel,

near where the property stands.

The scheme calls for the demolition of the old Rose

Terrace, which consists of nine occupied shops facing Nathan Road.

The area to be developed includes, in addition to the Rose Terrace, a large vacant allotment at the rear of the Terrace. This allotment is bounded on the right by the Far Eastern Motor Company's show-rooms, on the left by the Harbour View Hotel in Mody Road, aml in the rear by the M.B.K. Quarters at the corner of Mody Road and Minden Row.

The flats on the eastern side of the scheme will have an unhampered view of the harbour, across the vacant allotment opposite

THESE ARE THE ITEMS THAT WERE CENSORED

The censored extracts from the article; which are literally translated, are as follows:

"Chinese newspapers in Hongkong do not enjoy the same free-dom as the British press, owing to the censorship that exists in this Colony. Whatever is written, for publication in Chinese newspapers, therefore, must be thought over very carefully beforehand.

"This censorship inflicts considerable hardships on Chinese newspapers, and their efforts now are directed towards ending this state of affairs.

"APPEAL FOR ABOLITION OF CENSORSHIP .- Take, for instance, the recent sensational happenings in Kennedy Road. The names of the two principals in this case were censored by the authorities. The Chinese newspapers jointly requested the authorities to give permission to publish these names, but permission was refused until the matter was taken up through solicitors. By that time, when permission was granted, the news was too stale to be used.

Tilden-Vines Matches Aren't So Easy To Fix Up

MANY DIFFICULTIES OVERCOME BEFORE H. K. SEES THEM PLAY

worth Vines are coming to Hongkong. They arrive on October 12, AND THEY WANT PLAY TENNIS HERE. Which announcement is sufficient to make any and every follower of tennis in this Colony leap into the air with delight. But a moment please! It is not quite so simple Our Lawn Tennis Association has been approached with a view to arranging exhibitions for these illustrious players. But our body of authority is affiliated to the English Lawn Tennis Association, which in turn is subordinate, to some extent, to the International Federation. Which august institution, rightly or wrongly, has a very definite rule saying that no club or association, affiliated to or a member of, a National Association shall permit or promote tournaments, exhibitions or any competitions for professional tennis players on the mitting the grass to grow under its the end, be determined on whether courts of an affiliated club without the permission in writing of from such a project. Which Means This

DOILED down to commonplace language this means that unless! the H.K.L.T.A. can secure permission from the English L.T.A., between now and October 12, to arrange exhibitions for Tilden and Vines, the most we can hope to see of them is while they are crossing the harbour or making a tour of , the Island. Which, to our simple, but very enthusiastic young minds is too fantastic to consider. The only alternative is for a person, or the L.T.A., or any affliated tennis desire to know how much money they are likely to make by playing ourt which is not the property of in Hongkong and at other ports of group of persons, unconnected with an affiliated tennis club. About The Tour

bit vague concerning the proposed tour of Tilden and Vines. A month ago Tilden, interviewed in London said that he and Vines intended to pay a visit to Japan and the Orient, but it would be a holiday trip. However, holiday or not holiday, the professionals apparently intend that the visit shall pay for itself, as they have intimated their ed similar enquiries. But the tone the Hongkong public.

the visitors in an exhibition. Thus, here from Manila. These alterna-tives are, I believe, being consider-ed by the authorities, although frankly one cannot regard very hopefully the possibility of local players receiving special dispensation to play with the professionals. This pes-simistic note is influenced by the correspondence (published recently in these columns) between the English and Hongkong Lawn Tennis Asso-ciations in connection with Henri Cochet's visit last year. The English L.T.A: then very definitely pointed to Rule 23 (b) of the International. Lawn Tennis Federation which prohibits an amateur from playing a match or demonstrating the game with a professional without the written permission; of the National Association: and they added that under advice of the I.L.T.F.,
they were very loth to give such
permission apart from exceptional
cases. This clearly betokens that
the English L.T.A. would think
twice before permitting our players
to appear with and against Tilden and Vines. In fact the chances of securing such permission are about 80-20 ngainst.

the very nevelty of such a combina-tion would guarantee interest. Presumably the pairings would either be Tilden and Aragon against Miss Sharp and Vines, or Vines and Aragon against Miss Sharpe and Tilden. This apart, what, dlongkong will chiefly desire to see is a single between Tilden and Vines. These two giants of the tennis court have been at it hammer and tongs ever since Vines was induced to join the professional ranks three years ago. Vines has a decided edge on his colleague. but the great past-master of tennis, "Big Bill," is still capable of drawing out the best from Vines, and any match in which they figure either together or in opposition, is worth going many miles to watch. Ail of this is anticipatory, but it is rather nice to gloat over possibilities, particularly such pleasant ones as these.

And The Interport?

THE question of the tennis Interport clashing with the Amerienns' visit is one which will have to be tackled by the Hongkong and Shanghai Tennis Associations. It may, in point out why. There would bound to be an adverse reaction on the Interport. It would suffer by comparison both from the entertainment and the financial viewpoint. But this little question should be easily ad-

MORE ABOUT SHORT HISTORY OF AUSTRALIAN CRICKET

ARTICLE VII

(By R. Abbit)

In my last article I finished the account of W.G.'s 1873/1874 team in Australia. Three years were to clapse before another side went out and then a reversion to the two first tours took place as an entirely professional side went out. It will of course be remembered that W. G. had three other amateurs with him.

The team was composed of twelve players as had been the practice to that date and was captained by James CLUB TENNIS cricketing family. He was born in 1842 and did not pass on until 1929, aged eighty seven and a half years. It included one more Sussex player in H. Charlwood (1847-1868), five Yorkshire men, A. Greenwood (1847-1889), T. Armytage (1848-1922), Tom Emmett (1841-1904), Allen Hill Control (1851-1808), three Surrey men, H. (1841-1899), J. Southerton (1827-1880), E. Pooley (1838-1907). The interport match between the Hankow Cricket Club and the Shanghai Cricket Club will start on Saturday, September 19. E. C. Baker is captaining the Shanghai side which is now complete with the possible exception of A. D. Sayle, who is uncertain whether he will be able to go. The Shanghai side will probably be as follows:---

Burford, G. Chatterton, K. Foot, D. F. Landale, J. B. H. Leckie, G. M. Mills, A. D. Sayle, J. D. Sayle, Lt. R. D. Secretan, A. P. T. Taylor-Gill.

This year's side has both batsmen and bowlers. The side is not such a strong batting one as last year's but Leckie, Landale, Burford, Mills, Lt. I cannot do better than quote W.G.'s own account of the game.

W.G.'s DESCRIPTION

"The M.C.C., who batted first, made A discategue start. The first wicket (my own) fell with the senre at 4, and the second when but a single had been added. Eighteen overs produced 25 runs, and then Spofferth took the ball. The "demon" howler's fast deliveries met with immediate and wonderful auccess, as in six overs he took six wickets (five of them bowled, and three in one over) for 4 runs. "In saixty-five minutes the M.C.C. innings was over for \$5 runs. The excitement now ran high, but it grew even intenser when the Australians had lest eight wickets for 23 runs. Affred Shaw i and Morley shared the bowling, and the analysis read 8,1-6-3-6, and this was condition of the wicket may be gathered with a four ball over! Spofforth took E. et Arculli from the fact that Shaw bowled forty-els four for sixteen.

An Extraordinary Athletic Feat

Oslo, Aug. 27. Forrest Towns, American athletic marvel, who established a record of 14.1 seconds in the 110 metres hurdles at the World Olympics this month, considerably improved on this figure here to-day when he won a similar event in the astounding time of 13.7 seconds.

WORLD'S RECORDS APPROVED

The International Athletic Federaation, shortly after completion of Olympic track and field events, approved 23 men's track and field performances, which either equalled or broke existing world records.

Of that total, 20 went to American athletes, Jesse Owens leading the parade with five new world marks and one record which equalled the world standard.

The records accepted for Owens included his 20.3 race for both 220yards and 200-metres made during the Big Ten championships in 1935; 22.6 for 220-yards and 200-metres low hurdles made during the same tourna-ment and his 26 feet 81/4 inch broad

Other world records which went to Americans were: Archie Williams, 46.1 for 400-metres; Forrest Towns 14.1 for both 120 yards and 110-metre high hurdles; Glenn Morris, 7,900 points for the decathlon scored during the Olympics; America's 400-metre relay team's two mile run made dur-ing the Princeton Invitation track meet; George Varoff's 14 feet 61/2 inch pole vault made in the American A.A.U. games at Princeton; and Cornelius Johnson and Dave Albrittons six feet, 9% inches high jumy.

The body also accepted all world records made during the 11th Olympiad which totalled 12.

The organization also voted to henceforth supervise international women's track and field competition.

It was unanimously agreed that all vomen athletes must submit to competent medical examination should any protest regarding their sex be made formally within two hours after the conclusion of any event .-United Press.

SHANGHAI REQUIRES **FOOTBALL** REFEREES An Urgent

In readiness for the annual meeting, which is to take place on Thursday, September 10, at 5.15 p.m., inthe Cathedral School for Boys, the Shanghai Football Association has issued its report for the past season. The days have passed when this organization, as also used to be the case with the Shanghal Rowing Club, issued lengthy reports of a high literary standard packed with most interesting reminiscences, criticisms, laxatives and liver regulators. This present report does not go much beyond a bure record- keeping the digestive apparatus clean ing of actual liappenings and the line healthily active Pinkettes ensure numerous and lengthy statistical tables necessitated by the host of league and cup matches played every

Appeal

WORST CONDITIONS EVER

It is noted that the weather conditions last season possibly were the worst ever experienced by Shanghai Soccer. In fact, it was only with the greatest difficulty and the full sporting co-operation of clubs that it was possible to conclude the cup competitions and bring some of the League divisions to a successful conclusion. The 1st and 5th divisions of the League were uncompleted, although the positions of the clubs at the time of closing the season were such as definitely to decide the winners of the divisions concerned. As usual, the evenness in strength of the competitors caused a number of draws in the cup competitions, further delaying the season. On the whole, the standard of football showed improvement and compared favourably with previous seasons.
REFEREES SCARCE

Referees, the report laments, are Shanghal, and an urgent appeal is Vegetables becoming more and more scarce in dertake the duties to enroll in the referee classes which are conducted every season. The number of available referees was less than in the previous season, and this proved a Shop and ask for one of our seed: great handicap, inasmuch as the demand was greater than ever, owing to the larger programme. However, the difficulty was overcome by many of these gentlemen kindly officiating We are well posted on the best twice or three times during a weekend. The thanks of all Soccer enthusiasts are due to the referces for their co-operation and assistance; they are indeed to be congratulated on their splendid and efficient work. "Frightened to-day of the Franco-Russian Alliance."

S I see it," said my American friend. "the outstanding thing in Europe today is the conflict between

Russia and Germany." I must not give his name: because it is a known one and we were talking privately. But he knows about as much of Eastern Europe as anyone I know. And. he has a good, cold, objective

brain. "It is a double rivalry," he said "First, the rivalry of the two strongest powers, far and away the strongest, anywhere between the Rhine and the

China Sea "Second, the rivalry of two political churches-the Communist Party and the Nual Party.

 The strongest characteristic of Communism to-day is its hatred of Nazlam—not of Capitalism, or Fascism. but of Nazism; look, for proof, at any Communist paper.

"The strongest characteristic of Nazism is its hatred of Communism: the Jews are a bad second. "And in each case hatred is mixed wp with quite a lot of fear.

"It is a dangerous business."

Pretence

BUT," said I, "do you think either of them really means to attack the other? I'm doubtful"

"I'm not doubtful. I'm as near certain as you like," said he. "I'm perfeetly sure the Germans haven't the slightest intention of attacking Russia, or the Russians of attacking Germany. "Either way, as a military proposition, the thing is ridiculous. And both

general staffs know that perfectly well.
"But it suits each side's book to pretend that the other is going to attack. And when you pretend a thing hard enough you begin to believe it yourcelf.

"I've been astonished in Germany to find how seriously people believe in an imminent 'Russian danger'; airbases in Ozechoslovakia, Soviet aeroplanes only two hours from Berlin, and the rest of it."

Here's the Key

"ANYWAY, there it is. ules, diplomatic enemies, and there is war to the diplomatic kalle between them. And that is the key to most European politics to-day. "What is Germany's aim at the

"You mean an Anglo-Franco-German understanding?

"Exactly. Ten years ago you wanted that, and got it, at Locarno. For the same reason—to keep Russia out, Youwere frightened then of a Russo-German alliance. The Germans to-day, are frightened of the Franco-Russian

"They want to have the three Western Powers united-'ngainst Bolshevism '—that's the whole idea behind Hitler's diplomacy."

Dangérous

"WHILE the Bussans," said I. "want an Anglo-Franco-Soviet alliance against

Nazlam? "Exactly. That's what they come back to all the time. Bolshevik propaganda' to-day isn't in the least concerned with a projetarian revolution or anything of the kind. It is working overtime for a Triple Alliance.

"There you have it. Nazi Germany on one side, Bolshevik Russia on the other, each trying its utmost to get the other big fellows—and little fellows too—on its side, and to isolate the

"Anyway, that's how I see it, as an outsider. And it looks to me a dangerous sort of game for everybody concerned.

Indian Progress

TRADE UNIONISM Is - not strong in India. There are only some 200,000 Trade Unionists all told in the country. But consolidation of the movement and a determination to start a big drive for mass membership should

bring a rapid increase in these figures. One of the troubles has been the amount of time and energy devoted to the internal feud between the Ali-India Trade Union Congress and the National Trades Union Federation. The Federation is "reformist" and affillated to the I.F.T.U. The Congress is "Left Wing," but affillated to no

It will affiliate as a unit, so that its identity and organisation are retained. But if the experiment succeeds the two bodies will be merged.

In the interim period, to prevent the minority being swamped, it is provided that any important decision shall require a three-quarters majority: a dangerous provision which may prevent decisions being taken at all.

The agreement-known as the "Olriproposals"-was drafted by the Federation. It has been accepted with minor modifications by the Congress If the modifications are approved by the Federation, the way is clear,

Spoiled Chances

MR. LANDON will fight Mr. Roosevelt. And even Wall Street is regretfully convinced that Mr. Roosevelt will win. If the "Kansas Coolidge" really wants to live in the White House, he has spoiled his chances. Because the prospects of a beaten candidate being chosen again are very small.

That, they say, is why Vanderbergh, of Michigan, did not push his candidatura though he could have been a dangerous rival to Landon. "Let Landon fight in 1936. We'll

get Vanderbergh nominated in 1940 when there will be a chance," was the calculation of his managers. But heaven knows what may happen between now and 1940. Come 1940, there may not be a Re-

EVEN this isn't really a Republican versus Democrat fight of the old kind. The party machines are still there. But people aren't going to vote Republican or Democrat. They are going to vole for Roosevelt or against Roosevelt. In: 1940 there will be no Roosevelt.

All For Sixpence

THE Union of Democratic Control's Intest sixpenny pamphlet "Eastern Menace," is an admirable piece of work. Following the day by day news of such a complex business as the Japanese penetration in China is not easy without some knowledge of the ' background."

Newspapers cannot continually be giving "background" informationor they would have no space for anything else!

Books do: but books are expensive. And here in 100 pages, for only sixpence, is an excellently clear summary of the history of the whole affair and an equally clear account of what it is all about.

The Latest

A LPHABETICAL JETgon is bewildering to the uninitiated. "Everyone was talking about the B.I.T.," says an American just back from Geneva. "And when I asked what it meant, 1 got the answer: 'Oh, don't you know? It's the French for LLQ."

ROUND ABOUT

The Showman

LL men will envy Mr. Buttle, who has bought White Island complete with volcano. He has done something which appeals to the eternal boy in us.

"I like the idea of owning a volcano," says Mr. Buttle. So do I.

I should get into all the Bociety gossip columns on the strength of it-"Lord Showman, tuning up his vol-cano, Bolling Milk, He hopes to beat the eruption record at present held by Britain's only human volcano, the Earl of Flahferry."

Or-"Volcano parties, given by Lord Showman, are Mayfair's latest craze. Too shuddery!" Or-"Lord Showman, enjoying a quiet cup of ten, after having pushed Lady Angela Publicity into his vol-

Thesee Things. HOW YOU LIKE, EH?

WHILE keeping you acquainted with the latest developments in art, literature, politics and pure tosh, I have come across a new technique in news presentation. It is based on the theory that it is more vital and snappy to say "you got face like back cab," than, "You have a face like the back of a cab."

Let me give you an actual example —"He just back shorter whirlwind tour New York other cities." How you like that, ch? Heap big iden? Thought so. Now read on next par. You sec.

Brockham Green, Surrey, Aug. 10.

TATITH the publication to-day of the £130,000 will of Mr. Sidney Michael Poland, a retired furrier who died last April, aged 82, this Surrey village learned how its beloved squire had made provision for all its inhabitants.

No one and nothing connected with the village has been forgotten-from the children to the carol singers, from the church to the cricket club. Mr. Poland even left his manor house and gardens, subject to relatives' life interests, to be turned into a home and recreation ground.

The gross value of his will was £130,240, with net personalty £125,109. Here are some of his bequests;

AN AMERICAN'S **IMPRESSIONS**

Helsingfors, Aug. 10.

On his arrival here from the East and Russia, Mr. Cornelius Vanderbilt, jnr., journalist and traveller, in an interview, declared that an armed conflict between Japan and Russia was inevitable and only a question of time.

In well-informed Japanese evening. circles, he said, it was not considered probable that war would come for at least another year. Tokyo wished first to effect a military alliance with Germany.

The whole of Manchukuo, according to Mr. Vanderbilt's personal observations, can best be compared to a huge armed camp. Detachments of troops, military trains, tank parks, and anti-alreraft guns stretch along either side of the railway line. The latter is well guard-ed, and all inhabitants have been provided with, and instructed in the treats. use of, gas masks.

In Harbin he counted eighty-eight Japanese acroplanes, and was told that there were from three to four hundred in Manchukuo.

COUNTRY WANTS

The struggle for the possession of Irun and San Sebastian was resumed to-day and resulted in another insurgent check.

Following a heavy barrage by both sides, the insurgents attempted to storm the Government lines, but their attacks broke down and they were early compelled to abandon the direct assault along the road to Irun and attempted a flanking movement on the slopes of Mount Turiarte. This also ended in failure.

Following the arrival of reinforcements from Burgos, the rebels appear to have made some progress, but they have not succeeded in turning the strong Government positions.

This afternoon the fire slackened on both sides, for the combatants seemed to have tacitly agreed to have a siesta while the front line troops were relieved.

Elsewhere the insurgents claim | that Colonel Yague, the victor in -the battle for Badajoz, has occupied Talavera.

It is alleged that a Government aeroplane bombed the hospital at Jaca. The commander of the garrison there has announced that for each further bomb dropped on the hospital five prisoners will be shot. -Reuter.

Talayera, which has apparently been captured without any great difficulty, is an important town on the River Tagus, approximately fifty miles west of Toledo and south and west of Madrid about 100 miles as the 'crow flies.

NEW TEAMS FOR FIRST DIVISION

APPEAL BOARD RULING

(BY "VERITAS")

In contradiction to the de-Football Association, Kowloon Chinese F.C., and Eastern F.C., will be admitted to the first division of the Hongkong Football League this coming season.

This is the outcome of last night's meeting of the Appeals Board which upheld the appeals of these two clubs against the Management Committee's verdict made some two

ing consequences. Only recently the Management Committee agreed that the first division of the Hongkong League, this coming season, should be restricted to twelve leams as against 14 last year. Their minute on the question was approved by the H.K.F.A. Council after a note of warning had been issued by Col. H. C. Harrison, who deplored the committee's action in introducing measures diametric to an expression of opinion given at the annual meet-

ing of the H.K.F.A. The allowance of these appeals. which in effect means the two clubs must be included in the first division this coming season, creates an unprecedented and curious situation. It seems fairly certain that the Management Committee will seek a definite expression of opinion on the matter. On the face of it, although no other applications to the first division have yet been accepted or rejected, it appears that the constitution of that division will be 14 as in 1935-36, which is exactly what the Management Committee en-

deavoured to avoid. There are still several alternatives open for adoption should the H.K.F.A. Council - consider it more desirable to restrict the first division to 12 teams, but these will undoubtedly be debated in due course. day that its radio receivers had At the moment the one important heard Moscow transmitting at fact is that Kowloon Chinese Footbull Club, and Eastern Football Club, will be admitted to the first division.

NATIONS INTERVENE

London, Aug. 27. The internal politics of Spain concern the people of Spain, but the mass execution of war prisoners and the barbarous reprisals engendered thereby are matters to which the civilised states cannot remain indifferent.

This point was stressed in a communication from the Foreign Office to the British Ambassador, Sir Henry Chilton, who is at present in Hendaye, on the Franco-Spanish border, close to the scene of fighting around Irun and San Sebastians

The communication cordially welcomes the projected scheme of ecoperation in approaching the leaders of both sides to urge an end of brutality, and emphasises the cision of the Management urgent desire of the British Govern-Committee of the Hongkong ment to play a full part in an organised international effort which, it is hoped, will have favourable esults.—Reuter.l...

THE NINEPOWER TREATY

Yosemite, Aug. 17. The Japanese delegates, during round-table discussions in connection with the conference of the Institute of Pacific Relations, rejected a suggestion to submit the Nine-Power Treaty to the Hague Court for interpretation.

They declared that, no nation would accept the verdict of any tribunal on a matter of life and death. Justiling on a special conference for revision of the Nine-Power Treaty, the Japanese declared that suppression of foreign postal systems was the only clause of the Treaty so far fulfilled.

The Japanese also insisted that the clause requiring a decrease in Chinese urmies had not been fulfilled, neither had the clause relative to the gradual abolition of foreign concessions in

The delegates believed that all these and other questions arising from Russin's advent to Pacific power were not existing when the treaties were negotiated; and this necessitated a new conference for lengthy study of each question involved .-- United

HIS isn't the time of year when we want to be bothered with a lot of elaborate sewing. On the other hand, it's the time when we seem to need most clothes, what with summer sports, week-end jaunts, full-blown holidays, to say nothing of hum-drum affairs like business and home-running.

"So during this month I am choosing patterns that are specially simple to

For instance, you can make in a single evening any of the hats pictured here to-day. And it's smart to have a hat of the same material as your dress or . They are all cut from But-

terick Pattern 6901, obtainable at any store. If you order your pattern to-day and get your innterial to-morrow you can make it Sunday evening and wenr it on Monday. The pattern includes pieces

for two quite different style hats, and each of these styles may be worn in three different ways. So you get plenty of variety for your one pattern.

Ventilation Crown

THRST of all let's con-I sider the Breton satter type shown in the first drawing. It's got one of those smart new crowns that let your hair show through. The very thing for a hot summer day.

Yet the crown is so arranged that your hair will keep tidy even while pleasant little breezes are keeping your head cool,

The upturned brim, too is windresisting. Althoub it's wide and elegant, it won't finp irritatingly up and down when you're walking against

the wind. When you've cut out the pattern start by making the crown. This consists of two pieces of material, each shaped slightly so that they are wider at the ends than in the middle (slightly wasp-waisted, in fact). Work two rows of stitching at the

sides of each piece. Then lay the two pieces together in the form of a cross. Tack the corners of the cross together-and there you

have your hat crown, with four air-holes down the sides. Now leave the crown for a few minutes while you see to the brim. This is cut in one sweeping curve from two thicknesses of material. Line both the upper and lower pieces with book muslin, stitch the side seam of each so that the two circles are complete and then stitch both circles together to form a nice firm brim.

6901

Work double rows of machine stitching at regular intervals; add a ribbon band to the inside edge of the brim, then on to this band stitch the crown. Slip another short piece of doubled fabric through the opening in the crown and tie it firmly in a rabbit's ear knot right at the top. Add a narrow band of stitched fabric round the crown and the but is ready to wear.

Contrast_and_Colour_

VOU could make it in huen with a contrasting effect—say a navy I crown and white brim to wear with a short white linen cont and mavy dress and navy and white shoes.

50 British Babies "Exported" a Year

CTRONG action is likely to be taken officially before the end of the year to put an end to a long-established 'traffic" in British babies for adoption in Holland.

For some months, in a general inquiry into child adoption in . this country, the Home Office has been paying particular attention to the question of the adoption of English babies by foreign fosterparents.

NETHERLANDS LAW

In the Netherlands there is a law against child adoption. As a result, it was stated at a meeting in London of the National Council for the Unmarried Mother and Her. Child. hundreds of couples have come to England in search of babies.

Netherlands, said that much concern was felt for British babies so "exported," 90 per cent. of whom were the children of unmarried mothers.

There was no control over babies adopted by parents in the Netherlands, for they retained their British nationality until the age of 21.

About 300 children were said to have been received by foster-parents in Holland already.

GOOD HOMES

Further inquiries reveal that the exportation of British bables to the Netherlands has been much more extensive manage

Among the views expressed were: The Mission of Hope, Incorporated, South Park-bill, Croydon.-Over h period of 20 years we have found homes in Holland for an average of 50 British bobies a year, and there has rarely been cause for complaint. FACING DEATH

Moscow, Aug. 27. The Russian Military Attache in London, who was recently recalled, is the latest to be charged with complicity in the so-called Trotsky plot and it is expected he will be sentenced to death after his trial.--Reuter Bulletin Service:

WOMAN ROBS SISTER

HUSBAND HIDES STOLEN JEWELLLRY

Charged with stealing seven articles of gold Jewellery valued at \$200, from her sister yesterdny morning, Pun King-sin; married woman, living at No. 1 Tak Ku Ling Road, was brought before Mr. E. Himsworth at the Kowloon Magistracy this morning. Her husband, Chan Wal-yan, 24, employed in the home of Dr. Griffith, of the Kowloon Hospital, was charged with receiving the stolen goods.

Det.-Segt, MacPherson stated that complainant, Lo King, had recently come from the country to visit her sister. Wishing to go to market in the morning, she looked under her pillow where she kept the jewellery and found it was missing. She immediately reported the loss at 11.30 to the police, who sent Det.-Sgt. MacPherson and a Chinese constable to investigate. First defendant, the married woman, was acting suspiclously, and she was arrested and taken to the station, where she admitted having stolen the jewellery, but gave seven different stories as to where she had taken it. Finally she told the police that she had gone to the Kowloon Hospital and had given it to her husband, telling him to keep it for her. Second defendant denied that he had been handed a package by his wife, and stated that he had not seen her the whole day. Second defendant lived at home and went to his work from there dolly. After further questioning he admitted that he had been given a small puckage, but stated that he did not know what was in it. He hid the puckage in the rear of a cupboard, as he said his room at the Hospital was not safe because it could not be locked.

His Worship thought second defendant's story that he did not know what was in the package was a lie, and that he hid the goods in trying to shield his wife,

First defendant was bound over in the sum of \$20 to keep the peace for one year, whilst a fine of \$10 was inflicted on second defendant, with an option of one month's imprisonment.

TRAFFIC CASE DISMISSED

CHIEF INSPECTOR **PROSECUTES**

A summons by Chief Inspector Booker against a lorry driver, Au Mun, was heard at the Kowloon Magistracy this morning, before Mr. Macfadyen. The charge against accused was that he drove his lorry. No. 4355, on Castle Peak Road on July 25, in a dangerous manner.

Chief Inspector Booker stated that about 5.30 p.m., he was travelling in a car driven by his wife in the direction of Castle Peak. Approaching a bridge about 200 yards beyond the ninth milestone, Mrs. Booker saw a lorry coming in the other direction and pulled over to the left, the left wheels of the car actually running over the grass bordering the road. The lorry crossed the bridge, well on the wrong side, whereupon witness took down its number.

In evidence by Inspector and Mrs. Booker, it was stated that the lorry was carrying baskets. This was denied by the driver, who said that on the day in question, he carried nothing but sand.

Remarking that there was just a possibility of a mistake, the Magistrate dismissed the summons.

OTHER CASES Deciding that both men charged with driving without due care and caution were in fault, when Lam Huen, driver of public car No. 1062, and Leung Hee, driver of lorry No. 3282, again appeared before him as the result of a collision on Castle Peak Road on July 16, Mr. Mucfadyen imposed a fine of \$12 on each. The drivers collided with each other because both were guilty of rounding corners in the middle of the road, according to a statement made by the police at a previous hearing.

A plea that he was looking for a garage to fix his light was put forword by I. S. le Gay Brereton when he appeared in answer to a summons for failing to show a red rear light at night. He was fined \$5, Mr. Macfadyen holding that he should either have carried a spare bulb or not driven his car.

War Fears In Far East

Russia and Japan Preparing

AN AMERICAN'S. **IMPRESSIONS**

Helsingfors, Aug. 10. On his arrival here from the East and Russia, Mr. Cornelius Vanderbilt, jnr., journalist and traveller, in an interview, declared that an armed conflict between Japan and Russia was inevitable and only a question of time.

In well-informed Japanesecircles, he said, it was not considered probable that war would come for at least another year. Tokyo wished first to effect a military alliance with Germany.

The whole of Manchukuo, according to Mr. Vanderbilt's personal observations, can best be compared the crime. ments of troops, military trains, tank parks, and anti-aircraft guns stretch along either side of the railway line. The latter is well guarded, and all inhabitants have been provided with, and instructed in the dimly in the dark corridor. use of, gas masks.

In Harbin he counted eighty-eight Japanese aeroplanes, and was told that there were from three to four hundred in Manchukuo.

CEASELESS FLOW

On the Russian side of the Mongollan frontier it was also evident that ceaseless and intensive military preparations were being carried on. Although few eavalry and artillery units could be seen, it was affirmed that there were at least a thousand aeroplanes stationed in the neighbourhood of the border.

During a five days' journey on the Siberian railway Mr. Vanderbilt observed freight trains, loaded with military equipment of every possible description, passing his carriage at regular intervals of twelve minutes. On one particular day he counted as many as 20 trucks laden with aeroplane spare parts, and at one station it was stated that from two to three thousand flying officers and men were concentrated there. Tanks were also parked at different places nlong the line.

Mr. Vanderbilt was struck by the prevolent Jack of organisation and evident shortage of anti-alreral guns compared with what he had seen in Manchukuo.

He was favourably impressed by the tremendous changes for the better which had taken place in Rus-sian towns since his last visit in 1929. The people appeared to be much healthier and better nourished, particularly the children.

MISSING MAN RETURNS

Reported to have been missing from at Phillips House since.

ARREST IN PYJAMA GIRL MURDER

New York, Aug. 12. MARK WOLLNER, aged 35, violinist and radio performer, has been arrested and held for questioning by the police in connection with the murder of Helen Clevenger, the beautiful young student of New York University, who, clad in green silk pyjamas, was found shot in her hotel room on Thursday morning while on holiday at Asheville, North Carolina.

Wollner, who was born in Germany, has been living in Asheville for two years, frequently giving concerts from the wireless station there. He studied in Berlin, and under Jacques Thibaud in Paris. making his American debut in 1932 at the New York Town Hall.

He is of powerful and athletic build, and his appearance corresponds to that of a man reported to have been seen hurrledly leaving Miss Cievenger's hotel at the time of

dimly in the dark corridor.

Last night the police took Mr. Pittman to an hotel where Wollner was playing as the star soloist. On the basis of Mr. Pittman's report they decided to question Wollner, who vigorously denies any knowledge of the murder.

His denial is supported by Miss Mildred Ward, aged 19, at whose home he boards. The couple, are reported to be engaged. Miss Ward says her flance returned home at 9.30 on Wednesday night and did not go out again until 8.30

Factors Importance

in planning your advertising campaign.

COVERAGE: For many years the "South China Morning Post" has been regarded as the leading newspaper in Hongkong and South China. It has by far the largest circulation, penetrating to the Outports and inland centres. "The Hongkong Telegraph" enjoys a similar pre-eminence as the leading afternoon newspaper.

IN THE HOME: The newspaper that produces profitable results to the advertiser is the newspaper that is read and re-read by the family. The S. C. M. Post reaches most families with morning Similarly, "The Hongkong Telegraph" is the afternoon favourito with the majority.

LOCAL PRESTIGE: The judgment of "the man on the spot" in respect to media selection is based on sound knowledge and can be followed with confidence. Year in and year out leading local firms expend the greater part of their allocations in the "South China Morning Post" and "The Hongkong-Tolograph."

RETURNED BANISHEE PROBLEM

Having previously directed attention to the inefficacy of the at Oviedo. present methods of dealing with returned banishees, we find our selves in full accord with contention of Mr. Braga, at Wed-(DB2528/9) nesday's meeting of the Finance Committee of the Legislative Council, that the cost of arres and imprisonment of deportees who persist in coming back to the Colony is out of all proportion to the necessities of the case. The root of the trouble, as we see is that there are too many deportations for relatively minor offences, with the consequence always that young woman's that persons so banished are, as Mr. Braga expressed it, sent .away_by_one_boat.and.return_by. Once their prison be confounded with the first sentence is served, they are once feminine vintage of the Remore sent away, but they are soon back again, and the endless thing so mild and conservative those of tobacco they would in her famous high ruff, with a pipe process of re-arrest and redeportation continues. It will thus be seen that the banishment laws, as at present operated, fail of their purpose, added to which is all the trouble and expense of arrest and imprisonment and the consequent congestion of already overcrowded gaols. It would be illuminating in this connection to know how much it costs the Colony annually in the prison maintenance of returned banishees. The sum must very considerable, and largely wasted, since money experience has shown that the fear of imprisonment does not deter these people from returning. The Government viewpoint, that the law against disobedience of deportation orders must be enforced, cannot be disputed. there is obvious need that authorities are now conscious of whether flogging of returned dians: "They fill mouth, gullet, and it was believed a disinfectant and the point, since they are dealing banishees can be ordered, but a the whole head with powerful fumes preventive of contagion.

"IRECT Action" girls they like to hear themselves Police Court for disobeying from women who merely banishment order, and then harangue or organise, and to commit them to prison for specially so that they may not public, which now seem someby comparison.

But perhaps a better label produced. This effect profoundly malignant hatred of tobacco. than "Direct Action" would be "Les Petroleuses." For whenever there is a question of burning a convent, church or monastery—particularly the first-be certain that young women will be found handing on the tins of petrol if not actually tipping their contents over the sacred relics.

The hatred shown by them towards the nuns needs to be experienced to be credited.

How, though, has it been left to Spain to produce the first descendants of the bloodthirsty citoyens of a century and a half ago, who were to reappear in the Paris Commune of 1871?

OLD NATHAN ROAD BUILDING TO BE DEMOLISHED TO MAKE ROOM

DLANS are nearing completion for the construction of the biggest residential block ever mooted for this Colony.

One of three schemes is shortly to be developed in an area that covers almost one block in the heart of Kowloon. The scheme likely to be adopted calls for the erection of a 15-storey building, containing a total of seventy sump-

tuous flats of three, four and five rooms. This building will exceed in size the Peninsula Hotel,

near where the property stands. The scheme calls for the demolition of the old Rose Terrace, which consists of nine occupied shops facing

Nathan Road. The area to be developed includes, in addition to the Rose Terrace, a large racant allotment at the rear of the Terrace. This allot ment is bounded on the right by the Far Eastern Motor

Company's show-rooms, on the left by the Harbour View Hotel in Mody Road, and in the rear by the M.B.K. Quarters at the corner of Mody Road and Minden Row.

The flats on the eastern side of the scheme will have an unhampered view of the harbour, across the vacant allotment opposite the Peninsula Hotel.

The flats on the southern frontage will have an unimpaired view of Nathan Read.

The scheme likely to be adopted calls for the construction of a tiered building, somewhat similar in perspective to the Hongkong and Shanghai Bank. The lower ten floors will have a frontage extending the whole width of the allotment from the rear of Harbour View Hotel to the Far Eastern Motor Company's show-rooms, the upper five floors being in the centre of the building.

MANY DIFFICULTIES OVERCOME BEFORE H. K. SEES THEM PLAY

"BIG BILL" Tilden and Ellsworth Vines are coming to Hongkong. They arrive on October 12, AND THEY WANT TO PLAY TENNIS HERE. Which announcement is sufficient to make any and every follower of tennis in this Colony leap into the air with delight. But a moment please! It is not quite so simple. Our Lawn Tennis Association has been approached with a view to arranging exhibitions for these illustrious players. But our body of authority is affiliated to the English Lawn Tennis Association, which in turn is subordinate, to some extent, to the International Federation. Which august institution, rightly or wrongly, has a very definite rule saying that no club or association, affiliated to or a member of, a National Association shall permit or promote tournaments, exhibitions or any competitions for professional tennis players on the courts of an affiliated club without the permission in writing of the National Association.

These alternatives are, I believe, being considered by the authorities, although frankly one cannot regard very hopefully the possibility of local players receiving special dispensation to play with the professionals. This pessimistic note is influenced by the correspondence (published recently in these columns) between the English and Hongkong Lawn Tennis Associations in connection with Henri Cochet's visit last year. The English. L.T.A. then very definitely pointed to Rule 23 (b) of the International Lawn Tonnis Federation which prohibits an amateur ! from playing a match or demonstrating the game with a professional without the written permission of the National Association: and they added that under advice of the LL.T.F., they were very loth to give such permission apart from exceptional, cases. This clearly betokens that; the English L.T.A. would think twice before permitting our players, to appear with and against Tilden and Vines. Presumably the pairings would either be Tilden and Aragon against Miss Sharp and Vines, or Vines and Aragon against Miss Sharpe and Tilden. This apart, what diongkong will chiefly desire to see is a single between Tilden and Vines. These two giants of the tennis court have been at it hammer and tongs ever since Vines was induced to join the professional ranks three years ago. Vines has a decided edge on his colleague, but the great past-master of tennis, "Big Bill," is still capable of drawing out the best from Vines, and any match in which they figure either together or in opposition, is worth going many miles to watch. All of this is anticipatory, but it is rather nice to gloat over possibilities, particularly such pleasant ones

And The Interport?

TIME question of the tennis Interport clushing with the Amerienns' visit is one which will have to be tackled by the Hongkong and Shanghai Tennis Associations. It may, in point out why. There would bound to be an adverse reaction on the Interport. It would suffer by comparison both from the entertainment and the financial viewpoint. But this

Berlin.

The International Athletic Federaation, shortly after completion of Olympic track and field events, approved 23 men's track and field performances, which either equalled or broke existing world records. Berlin.

Of that total 20 went to American athletes, Jesse Owens leading the parade with five new world marks and one record which equalled the world standard.

The records accepted for Owens included his 20.3 race for both 220yards and 200-metres made during the Big Ten championships in 1935; 22.6 for 220-yards and 200-metres low hurdles made during the same tourna-ment and his 26 feet 8¼ inch broad

Other world records which went to Americans were: Archie Williams, 46.1 for 400-metres; Forrest Towns, 14.1 for both 120 yards and 110-metre high hurdles; Glenn Morris, 7,900 points for the decathlon scored during the Olympics; America's 400-metre relay team's two mile run made during the Princeton Invitation track meet; George Varoff's 14 feet 61/2 inch pole vault made in the American A.A.U. games at Princeton; and Cornelius Johnson and Dave Albrittons six feet, 9% inches high jumy.

The body also accepted all world records made during the 11th Olympiad which totalled 12.

The organization also voted to henceforth supervise · international women's track and field competition.

It was unanimously agreed that all women athletes must submit to competent medical examination should any protest regarding their sex be made formally within two hours after the conclusion of any event.-United Press. . .

WORST CONDITIONS EVER

It is noted that the weather conditions last season possibly were the worst ever experienced by Shanghai Soccer. In fact, it was only with the greatest difficulty and the full sporting co-operation of clubs that it was possible to conclude the cup competilions and bring some of the League divisions to a successful conclusion. The 1st and 5th divisions of the League were uncompleted, although the positions of the clubs at the time of closing the season were such as definitely to decide the winners of the divisions concerned. As usual, the evenness in strength of the competitors caused a number of draws in the cup competitions, further delaying the season. On the whole, the standard of football showed improvement and compared favourably with previous seasons.
- REFEREES SCARCE

Referees, the report laments, are becoming more and more scarce in Shanghai, and on urgent appeal is now made to all those willing to undertake the duties to enroll in the referee classes which are conducted every season. The number of available referees was less than in the drop into The Clover Flower previous season, and this proved a Shop and ask for one of our seed great handicap, inasmuch as the demand was greater than ever, owing to the larger programme. The thanks of all Soccer enthusiasts are due to the referces for their co-operation and assistance; they are indeed to be congratulated

on their splendid and efficient work. The Referees Society, under the able leadership of Mr. O. G. R. Beynon, again did excellent work in the training of referees and conducting classes of instruction, and thanks are due to them for this. It is hoped that full encouragement will be given this branch of its activities during the coming season.

Men and Things Abroad: by W. N. Ewer

GERMANY "Frightened to-day of the Franco-Russian Allianco."

S I see it," said my American friend, "the outstanding thing in Europe today is the conflict between

Russia and Germany." I must not give his name: because it is a known one and we were talking privately. But he knows about as much of Eastern Europe as anyone I know. And, he has a good, cold, objective

brain. "It is a double rivalry," he said " First, the rivalry of the two strongest powers, far and away the strongest, anywhere between the Rhine and the

China Sea. "Becond, the rivalry of two political churches—the Communist Party and

the Nazl Party. The strongest characteristic of Communism to-day is its haired of Nazism-not of Capitalian, or Fascian. but of Nazism: look, for proof, at any

Communist paper. "The strongest characteristic of Nazism is its hatred of Communism; the Jews are a bad second.

And in each case hatred is mixed up with quite a lot of fear. "It is a dangerous business."

Prefence

"Bur," said I, "do you think either of them really means to attack the other? I'm

"I'm not doubtful. I'm as near certain as you like," said he. "I'm perfectly sure the Germana haven't the alightest intention of attacking Russia. or the Russians of attacking Germany. "Either way, as a military proposition, the thing is ridiculous. And both

plays general staffs know that perfectly well."
"But it suits each side's book to pretend that the other is going to attack. And when you pretend a thing hard enough you begin to believe it

yourself. "I've been astoribled in Germany to find how scriously people believe in an imminent 'Russian danger'; airbases in Ozechoslovskin, Soviet neroplanes only two hours from Berlin, and the rest of it."

Here's the Key

"ANYWAY, there it is. mics, diplomatic end les, and there is war to the diplomatic knife between. them. And that is the key to most European politics to-day,

- What is Germany's aim at the moment?" "You mean an Anglo-Pranco-Ger-

"They want to have the three "" Western Powers united-'against Bolshevism '-that's the whole idea behind Hitler's diplomacy."

Dangerous

"Willie the Russians," said I. "want an Anglo-Franco-Soviet alliance against

Nazism? " "Exactly. That's what they come back to all the time. 'Bolshovik propaganda' to-day isn't in the least concerned with a proletarian revolution or anything of the kind. It is working overtime for a Triple Alliance.

"There you have it. Nazi Germany on one side, Bolshevik-Russia on the other, each trying its utmost to get the other big fellows-and little fellows too-on its side, and to isolate the

"Anyway, that's how I see it, as an outsider. And it looks to me a dangerous sort of game for everybody concerned."

TRADE UNIONISM In not strong in India. There are only some 200,000 Trade Unionists all told in the country. But consolidation of the movement, and a determination to start a big drive for mass membership should

bring a rapid increase in these figures. One of the troubles has been the amount of time and energy devoted to the internal feud between the All-India Trade Union Congress and the National Trades Union Federation. The Federation is "reformist" and affillated to the I.F.T.U. The Congress

MADRID MASS MURDER

(Continued from Page 1.)

The internal politics of Spain are the concern of the Spanish, people. but the mitigation of suffering is the concern of all.

"The apparent refusal to take prisoners, and consequent mass execution of those who are captured or who surrender, reprisals for such acts, and the increasing barbarities to which reprisals inevitably lead. are matters to which civilised States connot be indifferent. I understand it is to be proposed that diplomatic representatives should co-operate in the formulation of a scheme of approach to the lenders of both sides. In any such approach, His Majesty's Government will be ready and anxious to share. Moreover, it is also their urgent desire to play their full part in any organised international effort, such as will, it is to be hoped, result from this approach." British Wireless.

mischief by reporting that he had been robbed of \$1.20 by three men near Kennedy Road, Chung Wai, nged 37, unemployed, appeared before Mr. S. F. Balfour at the Central Magistracy this morning.

Detective Sub Inspector M. J Flattery stated that defendant reported to him that three men had robbed him of \$1.20 near the nullah behind St. Joseph's Church. Enquiries were instituted by the police, and several people were interrogated, and it was found that a large number of people were in the vicinity at the time of the alleged incident, and they had seen nothing of any robbery. Defendant later admitted that his story was not true, and that he made it up to get some other

people into trouble." Inspector Flattery added that defendant had given the police a great deal of trouble by having them making enquiries of a non-existent

robbery. His Worship fined defendant \$10 or one week's hard labour, in default, and ordered that he be sent back to the country.
